Subject: electric bill jumper up \$630.00

My DTE bill has gone from \$230 with an analog meter to \$860 with the digital meter. I have lived here 3 years and my bills normally range about \$230. My appliances are fairly new, I have not added anything that should jump my electric bill \$630 dollars. I am concerned about the safety and reliability of these meters and believe they are inaccurate, my bill is a perfect example.

Sincerely

Gary Langell
